

Sacred Reflexology

Sacred reflexology practice is where the reflexologist is able to enter the sacred space of the human being, facilitating a deeper level of healing

This occurs by working the traditional reflexology reflex points and the subtle bodies of the client's aura thru the seven chakra reflexes situated on the spine reflex line of the hands and feet.

Join me in an interactive, hands-on workshop to further develop or refine your reflexology skills and tap into your own soul wisdom.

Recreate and reignite your passion and wonderment for the art of reflexology.

The workshop is presented by Lyn Fava- Reflexologist and Principal of ASRR.
