

Australian School of Reflexology & Relaxation

# Metamorphic Technique

Metamorphic technique is easy to learn & relaxing to receive. This is a practice of loving touch on the feet, hands and head, to points which correspond to our time in the womb. This is a formative time where we set up the blue print for our life, including all our blocks and challenges.

A session is a catalyst to your Life Force which knows how to grow you in a way that is always right for you. Perfect for mums, pregnant women, reflexologists, therapists and anyone who wants to move forward in their life. Learn the metamorphic technique to work on yourself, friends and family or to go on to become a practitioner.

Dominique Mallee Meeroff is a leading Metamorphic Technique teacher who trained extensively with the founder of the technique. She is based in London and teaches around the world. For more information visit <http://www.metamorphicjourneys.com/event/melbourne-metamorphic-technique-workshop>
